

The Pamphlet Files

The Pamphlet Files were established as an original resource, part of the Library's traditional and strong interest in the preservation of ephemera. Some of the material in these files dates back to the late nineteenth century. The Pamphlet Files are often the only record that a gallery or organization existed. They are not catalogued, and there are no references to them in our online catalogue. The files include exhibition brochures, fliers, small exhibition catalogues, gallery announcements, newsletters and other ephemera relating predominately to New York City and state galleries, museums, colleges and universities, professional associations, foundations, non-profit organizations, and other arts organizations. In addition, there are files for one-time arts events and movements, such as "New York State Exposition" and "Art for Peace." Unless otherwise noted, all files originated from one of the five boroughs of New York City. The list of entries is arranged in alphabetical order; for galleries that have a given name and a surname, i.e. "Martha Jackson Gallery," the entry will be alphabetized according to the first name.
